Wheelz needs your help! He took a picture of his new neighborhood to send to his friends at DSG, but when he got it printed, it looked a little different. Unfortunately, Wheelz can't seem to tell exactly what changed. Can you help him find the differences? Just circle the eight things that are in the second picture that are not in the first. Then send us your completed game page to claim a cool prize!

**Contest ends March 31, 2012.**
